“Whether you are a small I.T company or a large Data Storage Operation Techinsure.ie has you covered!”

Your one stop policy to protect your interests.....

Techinsure.ie is the specialist Irish based Insurance brokerage offering IT Insurance for technology businesses including self-employed individuals and IT consultants. We understand the unique risks you face, and have designed cover that is customized to your specific needs ensuring that you are not exposed to any adverse insurance exposures.

Why choose Techinsure.ie ?

- Unrivalled experience and expertise!
- Single Insurer providing all coverages!
- Flexible policy limits which can be altered to reflected contractual requirements!
- Ongoing annual policy review to ensure that coverages are kept up-to-date.

www.techinsure.ie

Technology companies operate in a complex risk environment. The potential claims that technology providers face arising from errors in the delivery of technology products or services can be substantial.

Our aim is to provide insurance solutions which address the industry's unique exposures and for these solutions to be delivered in a professional and timely manner, Our policy can be structured to provide :

1. **Property Insurance**

-Including All Risk Cover for I.T equipment

2. **Business Interruption**

3. **Public Liability**

4. **Employers Liability**

5. **Professional Indemnity**

-Policy underwritten on a specialist I.T policy wording.

-Liability protection for third party financial loss resulting from a failure of the Insured's products or services. The cover is tailored to technology companies to cater for their products which would not be covered on traditional professional indemnity policies.
