### Useful Hints on Protecting Your Property

Every year many people find it necessary to seek assistance from their Insurer and lodge a claim against their Policy. **We** are committed to reducing the stress suffered at this time by offering the best possible service and assisting **You** to return to normal as soon as possible.

In an effort to reduce the risk of some of the most common incidents occurring, **we** have put together some information that we hope you find useful.

### **BURST AND FROZEN PIPES**

- Insulation and lagging check that water pipes and tanks are properly insulated and lagged. You should
  pay particular attention to pipes that are exposed to the cold, outlet pipes, pipes that run along outside
  walls in unheated rooms or in your loft.
- Central Heating in a long cold spell, where possible, keep central heating on a low setting and open the loft hatch occasionally to let warm air circulate.
- Draining systems drain your entire system and switch off the water supply at the mains if you plan to be away for a long period.
- Stop cock know where your stop tap is so that you can switch the water off in the event of a burst.

### LEAKS

- Radiator valves check valves regularly for leaks.
- Overflow pipes and tanks check overflow pipes, water tanks and central heating header tanks regularly. Check that ball cock valves close and the ball sits correctly.
- Washing appliances check fittings and the working order of your appliances on a regular basis.
- Gutters check and clear gutters regularly. Maintain and repair any damage to avoid water penetrating your property.
- Gradual leaks damp patches, mildew and mould are indicators that there may be a gradual leak and should be checked at the earliest opportunity. This type of loss is not covered on your policy.

### FIRE

- Smoke Alarms fitting a smoke alarm will give you an early warning of fire. Test your alarms regularly to
  ensure they are operational.
- Open Fires having your chimney swept once a year will ensure there is no build up of soot and will
  prevent fire or brickwork damage.
- Cooking many fires in the home occur in the kitchen area. Never leave pans with hot oil unattended, ensure children are not left alone in the kitchen and keep matches stored out of reach.
- Electrical Sockets never overload electrical sockets and before retiring for the night, switch them off. Unplug all appliances if the home is to be left unattended.
- Candles should be put in secure holders, out of the reach of children and blow them out before leaving the room. Any surface they are placed on should not burn and avoid placing them near curtains or any material that could catch fire.
- Smoking always ensure cigarettes are properly extinguished and you should not smoke in bed.

• Fire Escape Plan – agree a plan with your family. Everyone should know where the door and window keys are kept and the best route to leave the property.

If there is a fire - contact the emergency Fire & Rescue Service on 112 or 999.

The National Safety Council promotes awareness on fire safety issues and may be able to offer you advice.

### THEFT

- Window Locks install window locks on all ground floor and other accessible windows and deadlocks on external doors. Check your doors and windows are in sound condition and have toughened glass.
- Secure Windows and Doors lock windows and doors when you leave your home, even if it is only for a short time. Keep any outbuildings secured.
- Holidays ask a neighbour or friend to keep an eye on your home and collect your post. Cancel milk and paper deliveries.
- Keys don't hide keys on or near the home, keep them out of sight.
- Valuable items use security markers to record your postcode and house number on these items.
- Burglar Alarm consider having an alarm installed, this may deter thieves.
- Strangers avoid allowing strangers into your home, ask for proof of identity and think about fitting a door safety chain or a spyhole.

Contact your local Crime Prevention Officer and a member of the Associated Locksmiths of Ireland for further advice on the security of your property.

### YOU SHOULD REMEMBER THAT:-

- All gas consumers are advised to have appliances checked for safety at least every 12 months by a Registered Gas Installer and Carbon Monoxide Alarms are a useful back-up precaution although not a substitute for proper installation and maintenance of gas equipment.
- It is important to check your roof for missing or loose tiles. Have these replaced or repaired to prevent leaks.
- Roots of trees and shrubs can damage your property. Think about where you plant new trees or shrubs and seek advice from a tree surgeon if you have mature trees.
- A loft is the perfect environment for unwanted pests. They may cause damage to property and items stored in the loft. There is also the possibility of fire hazard if they interfere with electric cabling.

Settling claims

### How we deal with your claim

- 1. If your claim for loss or damage is covered under section one, we will pay the full cost of repair as long as:
  - the **buildings** were in a good state of repair immediately prior to the loss or damage
  - the sum insured is enough to pay for the full cost of rebuilding the **buildings** in their present form
  - the damage has been repaired or loss has been reinstated.

We will take an amount off for wear and tear from the cost of any replacement or repair if immediately before the loss or damage the **buildings** were not in good repair.

- We will not pay the cost of replacing or repairing any undamaged parts of the buildings which form part of a pair, set, suite or part of a common design or function when the loss or damage is restricted to a clearly identifiable area or to a specific part.
- 3. We will not pay:
  - the first €1270 of every claim for subsidence, heave or landslip
  - the first ∈750 of every claim under section 4 escape of water from and frost damage to fixed water tanks, apparatus or pipes.

### Your sum insured

4. We will not reduce the sum insured under section one after we have paid a claim as long as you agree to carry out our recommendations to prevent further loss or damage.

5. If you are under insured, which means the cost of rebuilding the **buildings** at the time of loss or damage is more than your sum insured for the **buildings**, then we will only pay a proportion of the claim. For example if your sum insured only covers one half of the cost of rebuilding the **buildings**, we will only pay one half of the cost of repair or replacement.
